

Olga Pearce

Lawrence Livermore National Laboratory
P.O. Box 808, L-560, Livermore, CA, 94551
✉ olga@llnl.gov
<http://people.llnl.gov/olga>

Research Interests

Parallel and distributed computing, parallel algorithms and optimizations, distributed data structures, parallel performance modeling and optimization, application load balancing, parallel programming models, generic parallel libraries and tools

Education

- 2014 **Ph.D., Computer Science**, *Texas A&M University*.
Load Balancing Scientific Applications. Advisor: Prof. Nancy M. Amato, Ph.D.
- 2004 **B.S., Computer Science and Mathematics**, *Western Oregon University*, Magnum Cum Laude.
- 2000 **A.A., Business Administration**, *International Christian University*, Kyiv, Ukraine.

Awards

- 2015 LLNL Deputy Director's for Science and Technology (DDS&T) Excellence in Publication Award for work in load balancing.
- 2009-2014 **Lawrence Scholar Program (LSP) Fellowship**, *Lawrence Livermore National Laboratory*.
Technical Supervisor: Bronis R. de Supinski, Ph.D.
- 2006-2009 **NSF Graduate Research Fellowship**, Texas A&M University.
- 2004-2007 **GAANN Fellowship**, Texas A&M University.
- 2004-2005 Association of Former Students Fellowship, Texas A&M University.
- 2007-2011 Broader Engagement grant recipient, Supercomputing Conference.
- 2007 Award to attend CRA-W/CDC Programming Languages Workshop.
- 2005-2007 Award to attend and speak at CRA-W Grad Cohort, Computing Research Association.
- 2004 Award to attend Grace Hopper Conference and DMP reunion, Computing Research Association.
- 2003,2004 **Distributed Mentor Project**; Computing Research Association.
- 2004 Outstanding Senior in Computer Science; Western Oregon University.
- 2003 Outstanding Achievement in Computer Science, Outstanding Achievement in Mathematics.
- 2003 Who's Who Among Students in American Colleges and Universities, Phi Kappa Phi member.
- 1997 **Future Leaders Exchange Program**; one of one hundred recipients nationwide.
U.S. Department of State, Freedom Support Act.

Research Experience

- 2014-present **Lawrence Livermore National Laboratory**, *Computer Scientist*.
Developing techniques and tools for analyzing and optimizing performance of large scale multiphysics simulations on homogeneous and heterogeneous architectures and for load balancing scientific applications. Developing parallel programming models and tools.
- 2009-2014 **Lawrence Livermore National Laboratory**, *Lawrence Scholar*.
- Developed a model enabling the comparison of and selection among balancing algorithms for a specific state of a simulation.
 - Developed a framework for decoupling and offloading the load balance computation, enabling lazy load balancing.
 - Developed an accurate and fast method to evaluate and balance the load in N-Body simulations with highly non-uniform density, based on adaptive sampling.

- 2004-2009 **Texas A&M University, Department of Computer Science**, *Research Assistant*.
- Worked on distributed data structures in the Standard Template Adaptive Parallel Library (STAPL), a parallel superset of the C++ Standard Template Library. Implemented and optimized a parallel vector.
 - Designed and implemented a set of parallel algorithms for STAPL. Assisted in development of the adaptive algorithm selection framework for STAPL.
 - Explored the idea of lock-free containers for multi-threaded programming.
 - Worked on a Dynamic Graph Composition Library for updating graph metrics of large, dynamic graphs.
- May-Oct 2007, **Lawrence Livermore National Laboratory**, *Research Intern*.
- July-Aug 2008 Worked on load balancing a multi-physics simulation via domain repartitioning and domain replication. Devised techniques to cheaply estimate processor loads and decide when a load imbalance needs to be corrected. Incorporated multi-constraint repartitioning (data parallelism) and domain replication (task parallelism) as a way to correct imbalance.
- Summer 2003, **Texas A&M University, Department of Computer Science**, *Undergraduate Research Intern*.
- Summer 2004 Designed and implemented a parallel array data structure and multiple parallel algorithms for the Standard Template Adaptive Parallel Library (STAPL), a parallel library for C++, superset of STL.

Conferences & Workshops Organized

- 2018-Present **Nuclear Explosives Code Development Conference (NECDC)**, *Co-Chair*.
Fundamental and applied research topics related to computational simulation. 300+ attendees.
- 2018-Present **JOWOG 34 Applied Computer Science (ACS)**, *Co-Chair*.
Scalable algorithms & simulation techniques for LLNL, LANL, Sandia (US) and AWE (UK). 100+ attendees.
- 2018 **Students@SC Program at ACM/IEEE Supercomputing Conference (SC)**, *Vice-chair*.
2-day program for undergraduate and graduate students ahead of SC. 200+ attendees.

Committees

- 2015-Present **Lawrence Livermore National Laboratory (LLNL)**, *Computation Directorate representative on Livermore Graduate Scholar Program (LGSP) Committee*.
- 2015,2019 **ACM/IEEE Supercomputing Conference (SC)**, *Research Posters*.
- 2019 **International Conference on Supercomputing (ISC)**, *Ph.D. Forum*.
- 2019 **IEEE International Parallel & Distributed Processing Symposium (IPDPS)**, *Multidisciplin.*
- 2018 **International Conference on Parallel Processing (ICPP)**, *Chair of the Software Track*.
- 2010,2011,2018 **ACM/IEEE Supercomputing Conference (SC)**, *Tutorials*.
- 2018 **IEEE International Conference on Cluster Computing (Cluster)**, *System Software Track*.
- 2018 **Parallel Computing Journal**, *Reviewer*.
- 2018 **IEEE International Parallel & Distributed Processing Symposium (IPDPS)**, *Progr. Models*.
- 2018 **IEEE/ACM Intl Conf Cluster, Cloud, & Grid Computing (CCGrid)**, *Perf. Modeling & Eval*.
- 2017 **EuroMPI/USA 2017**, *Posters Program Committee*.
- 2017 **ACM/IEEE Supercomputing Conference (SC)**, *Perf. Measurement, Modeling, and Tools*.
- 2017 **IEEE International Conference on Cluster Computing (Cluster)**, *Apps, Algos, & Libraries*.
- 2017 **International Conference on Parallel Processing (ICPP)**, *Software*.
- 2017 **IEEE International Parallel & Distributed Processing Symposium (IPDPS)**, *Software*.
- 2016,2017 **Grace Hopper Conference**, *Computer Systems Engineering*.
- 2015 **ACM/IEEE Supercomputing Conference (SC)**, *BoF: Progr. Languages, Models, & Compilers*.
- 2011 **Small Business Innovation Research (SBIR)**, *DOE Office of Science Grant Review*.
- 2011 **ACM/IEEE Supercomputing Conference (SC)**, *Student Cluster Challenge*.
- 2008 **ACM/IEEE Supercomputing Conference (SC)**, *Broader Engagement*.

Professional Activities

- Reviewing TPDS'13, SC'11, PPOPP'08, SC'07, IPDPS'07, ICS'07, HIPS'07, IPDPS'06, ICS'06, DISC'05, LCPC'05, PPOPP'05.

Volunteering DOE Exascale Research Conference'12, SC'07 Student Cluster Challenge, Grace Hopper'06, SC'05.
Memberships ACM

University Activities

- 2004-2014 **Member**, *Computer Science Graduate Student Association (CSGSA)*, Texas A&M University.
2006-2008 **President**, *Aggie Women in Comp. Science (AWICS)*, ACM-W Chapter, Texas A&M University.
2006 **Invited Interview**, *Explore Computer Science website*.
2004-2006 **Mentoring Officer**, *Aggie Women in Computer Science (AWICS)*, ACM-W Chapter, Texas A&M.
2004 **Organizing Member**, *Pi Mu Epsilon Chapter*, Western Oregon University.
2002-2004 **Member**, *Math Club*, Western Oregon University.
1998-2000 **Class Representative**, *Student Government*, International Christian University.
1998-2000 **Project Member**, *Student Organization "Initiative"*, Leadership seminars for high school students.

Teaching and Mentoring

- 2015-present **Student Research Mentoring**, *Lawrence Livermore National Laboratory*.
 - (Summer 2018) Kewen Meng, CS major (PhD), University of Oregon. Worked on porting [CoMD](#), an ExMatEx proxy application to [RAJA](#), and optimizing performance for the CUDA RAJA backend.
 - (Summer 2018) David Eberius, CS major (PhD), University of Tennessee. Worked on porting [CoMD](#), an ExMatEx proxy application to [RAJA](#), and optimizing communication on GPUs.
 - (Summer 2016) Hadia Ahmed, CS major (PhD), University of Alabama at Birmingham. Studied performance impact of initial load imbalance and dynamic imbalance in the modified version of [CoMD](#), an ExMatEx proxy application.
 - (Summer 2015) Rasmus Larsen, CS major (MS), University of Copenhagen. Enabled overdecomposition and dynamic work redistribution in [CoMD](#), an ExMatEx proxy application. Implemented a mechanism for introducing initial load imbalance and varying the imbalance throughout the simulation to facilitate exploration of various load balancing schemes.

2007 **Student Team Mentoring**, *Cluster Challenge*, ACM/IEEE Supercomputing Conference (SC).
 - Mentored teams participating in the challenge, provided technical expertise in parallel performance and parallel applications ported by the teams to their clusters during the challenge.

2005-2009 **Student Research Mentoring**, *Texas A&M University*.
 - Jeremy Vu, CSE major, Texas A&M University. Worked on parallel algorithms in STAPL.
 - Harshvardhan, CS major, Texas A&M. Worked on STAPL Graph, Dynamic Graph Composition Library.
 - Kelli Bacon, CRA-W DMP Program. CE major, Gonzaga U. Dynamic Graph Composition Library.
 - Saransh Mittal, CSE major, Indian Inst. of Technology, Bombay. Dynamic Graph Composition Library.
 - Anna Tikhonova, CRA-W DMP Program. CS major, U. of San Francisco. Parallel algorithms in STAPL.

2006 **Fellow**, *Graduate Teaching Academy*, Texas A&M University.
2006 **Student Mentoring Award**, *Aggie Women in Comp. Science (AWICS)*, Texas A&M University.
2002-2004 **Teaching Assistant**, *Department of Mathematics*, Western Oregon University.
2002-2004 **Tutor**, *Dept. of Computer Science and Dept. of Mathematics*, Western Oregon University.
2001-2004 **Youth Mentor**, *HOST Youth and Family Program*, Northwest Human Services.

Professional Experience

- 2003-2004 **Software Engineer**, *Department of Computer Science*, Western Oregon University.
Designed a multi-user web-based, database backend application for the Oregon Department of Agriculture.
2002-2004 **Lab Assistant**, *Department of Computer Science*, Western Oregon University.
2001-2003 **Youth Worker**, *Northwest Human Services*, Salem, Oregon.
2000-2001 **Electrical Test Operator**, *Tyco Printed Circuit Group*, Dallas, Oregon.

Skills

General C/C++, Java, Python, git, svn, CVS, autotools, CMake.

High Performance Computing	Parallel performance tool development in C/C++. MPI profiling tools, runtime systems. Parallel algorithms and data structures. Measurement, analysis, and tuning of parallel applications on large clusters (IBM/NVIDIA Sierra, IBM Blue Gene, Linux). Experience with large physics codes at LLNL.
Load Balancing	Measurement tools, load analysis metrics, (hyper)graph partitioners, load balancing algorithms.
Graduate Coursework	Algorithm Analysis, Parallel Algorithms, Generic Programming, Programming Languages, C++ Language Design, Computer Architecture, Compiler Design, Machine Learning, Numerical Methods, Supercomputing, and Runtime Systems.
Languages	English (fluent), Ukrainian (native), Russian (fluent)
